

**When adding air to an under-inflated tire, a TPMS with “Filling Assist” or “Easy-Fill” provides visual and audible signals to help you adjust the tire pressure to the recommended COLD tire pressure.**

**Dill recommends using only OEM Sensors on the applications listed below.**

Model	Model Year Range	DILL Sensor
Acura MDX	'16	5514
Acura TLX	'15-'16	5514
Honda Pilot	'16	3751
